

# Fiat Enigma

The puzzles on these two pages were written by the Campus Puzzlers' League, a student group for those who enjoy solving, writing and discussing puzzles. You may have seen our weekly puzzle in the Daily Cal or taken part in our annual Mystery Hunt at the end of spring semester. Have you been enjoying our offerings? Like us on Facebook:

<https://www.facebook.com/CalPuzzlers>

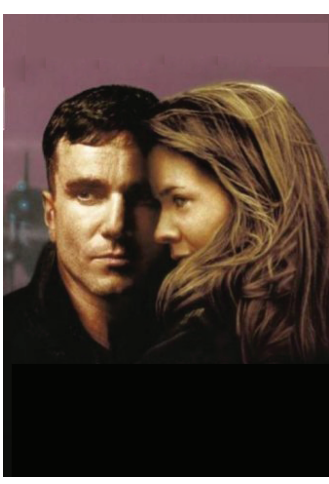

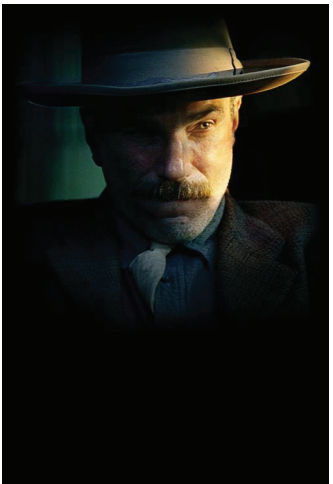

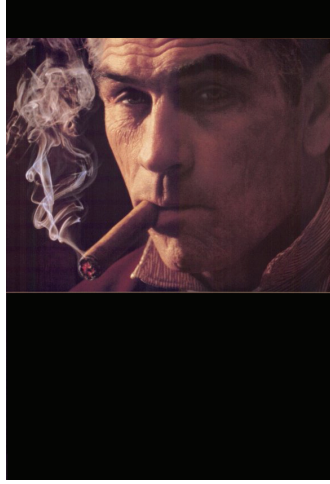

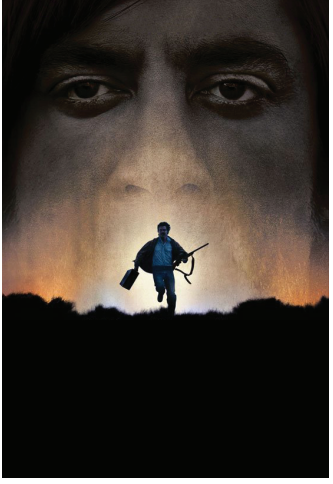

or send us an email at [puzzle@lists.berkeley.edu](mailto:puzzle@lists.berkeley.edu).

And don't worry, you don't need to be a puzzling expert -- we welcome all those with an interest in puzzles!

Each page is a self-contained set of puzzles. The first step of the puzzle is to figure out what to do: if you're stuck, take a look at the hints box on the right page. The answers to the individual puzzles on the left page are English words. Taken together, this set of words will suggest another word. The answers to the individual puzzles on the right page are single letters. Taken together, these letters will spell out an English word.
